# Sum Up

At the core of it

we want to be always happy and prosperous,  
we want to be healthy,  
we want to live in relationship in the family, with friends, in the  
institution...with every human being,  
we want to live in a just and equitable society and  
we want to have a conducive natural environment

**We also do not want problems**

For fulfilling our aspirations (and for resolving our problems), we have to understand, ensure the right feeling in ourself and participate in a meaningful manner in the larger systems in the family, society and nature

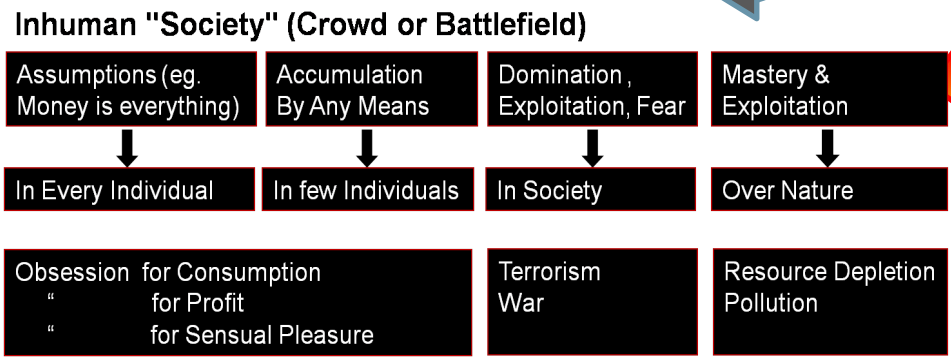

There is every provision for this...  
only we have to make the effort in this direction

# Purpose of Education: To Enable Transformation

People living with human consciousness give rise to a humane society

Family based Society (families having common goal)

Individual based (having different or opposing goals)

Transformation - Progress  
संक्रमण - विकास

We are making effort for this transformation  
We want our institution to be a living example...

**Further**

# Future Scope

Before the end of SIP

- Self-evaluation

- Feedback

- Celebration

In all semesters:

- Mentor program

- Buddy program

In 3<sup>rd</sup>/4<sup>th</sup> Semester

- UHV-II mandatory 3-credit course on Universal Human Values

## In Closing...

UHV-I was just a glimpse of your potential as a human being

If you can see the possibility of this content and process,

If you can see your own potential, and the potential of your family,  
your institution, your society, the Nation...

then you will renew your commitment to make the necessary effort for it

As a student, you have a high possibility to realise this potential

- To develop to your *full human personality* and
- To be a source of *a just and equitable society*

It has been an enriching experience for us

We would like to hear from you about your experience
